

As of now, we are not allowed to have outside food brought into our schools, even to feed for teams. Because of this, the district will offer a brown bag snack "extra lunch" for student athletes for both home and away events if they choose. Here's how it will work.

Our Bulldog Food service will provide a deli sandwich (meats might vary), chips, cookies, piece of fruit, and water for a \$3 charge to the student's lunch account. Students will need to sign up by the end of their lunch shift the day of the event. This signup sheet will be located in the HS or MS offices. Students will NOT be able to choose what they want, it's whatever is being served that day. With so many events happening, it would be impossible to take individual orders.

These sacks will be served about 30 minutes prior to the leave time (in 2 groups; 15 min to eat, 15 min to get changed) or during advisory. We will NOT be eating on the buses as students will need to wear face coverings.

Students can choose to do this or bring extra food with them in the morning. What cannot happen, until further notice, is for someone to bring them food or parents bring in outside food to feed individuals or an entire team.

If you have questions, please let me know!

Thanks
